Codebusters C

Montgomery HS

CSE 2025

- You will have **50 minutes** to complete this test.
- You may bring up to **(3)** 4 or 5 function calculators, if you have any additional please place it underneath your seat
- You may use the space on the exam as scratch paper, but please make sure that your answers are clear. Either write your answers separately and box them, or write them directly over/under the ciphertext.
- You may take apart the test as you wish, however you should write your team number **on top of every page** and a **250 point deduction** will be taken if the pages are **not** put back in the correct order
- The first question on the exam is **Timed**. If you believe you have solved the question in the first 10 minutes, signal to the event supervisor who will come over to check it. If you are correct, your time will be recorded and a bonus issued; if you have more than 2 errors you will be notified and allowed to retry for a bonus throughout the first 10 minutes.
- If you successfully complete the timed question after 10 minutes, you may still get the base points for the question however it will not be checked and no bonus will be awarded.
- There are 3 questions marked for **Special Bonus**: 14, 22, 24
- Page 2 contains scoring information. Pages 3 and 4 contain the reference materials. Page 5 (front of the 3rd sheet) is the **Timed Question**.

R - 6.41%	C - 3.87%			

For the purposes of cryptograms it is customary to treat n and ñ as distinct letters, but a and á are the same letter. Likewise for e and é, and i and í. In other words, all the accent marks get amputated when working with cryptograms. Also, while some older Spanish dictionaries consider ch, ll, and rr, to be their own letters—this has fallen out of modern usage. Accordingly, "burro" is considered as five letters: "b-u-r-r-o" and not as four letters "b-u-rr-o."

Morse Code

Timed Question. [250 Points] Solve this **Aristocrat**. When you have finished, please meow as loudly as possible so your answer can be checked and time recorded.
