Northern Florida Regional - Repaired practice edition - Answer key

Division C | Forensics | Repair appendix

This appendix contains authored replacements and supplied written alternatives. It does not reconstruct unpublished historical material. For the listed item IDs, use this appendix instead of the archived wording and key.

ANSWER KEY - Review only after submitting.

Plastic-1. (4 points) Authored replacement for source item Question Plastic-1: White precipitate with NaOH dissolves in excess NaOH. Identify behavior and one ion.

answer: Amphoteric hydroxide, consistent with Al3+ as Al(OH)3 forming aluminate in excess. (4 points).

Plastic-2. (4 points) Authored replacement for source item Question Plastic-2: Chip floats in water. Which codes remain and which liquid splits PS from PET/PVC?

answer: Remain PP, LDPE, HDPE; saturated salt near 1.20 floats PS near 1.05 but PET and PVC near 1.38 still sink. (4 points).
