

PROGAMERS

DESCRIPTION: Teams of students will use the latest Scratch programming language to recreate a game being shown to them on a screen in the room.

COMPETITORS BRING/NEED:

- Writing utensils
- One sheet of 8.5 X 11 sheet of paper, which may include hand written information on both sides from any source (per team)

NUMBER OF PARTICIPANTS: Maximum of 2

IMPOUND: NO

THE COMPETITION:

1. Each team will have their own computer with access to the Scratch website.
2. Students will log in using the accounts created specifically for the tournament.
3. A pre-programmed game, supplied by the event supervisor, will play on a continuous loop on a screen in the room.
4. Students will have 40-45 minutes (all teams will have the same amount of time for the tournament) to program the game exactly as it is shown.
5. Students may be asked to code part of the game using a specific technique (e.g. use a loop)
6. Students will make their game public by sharing them with the event supervisor.

SCORING:

- High score wins.
- Points will be award for each piece of the code that students are successfully able to program.
- Ties will be broken with pre-determined pieces of code or by the team that successfully programs a piece of code in the least amount of time. EVent supervisors will determine and communicate the tiebreaker to teams.
